REVERSE MORTGAGES

REVERSE MORTGAGE WORKS

A reverse mortgage is a specialized loan that enables seniors age 62 or over to tap into their home equity while they continue to live in their home.

A Home Equity Conversion Mortgage (HECM) is the only federally insured reverse mortgage program.

The HECM is a safe alternative resource that can provide seniors with greater financial security and independence.

Many seniors use reverse mortgages to supplement social security, meet unexpected medical expenses, make home improvements and more.
